# SHP residents due refund from water overcharging

As a Sutton Housing Partnership tenant or leaseholder you have until recently been paying for your water in your service charge. That has now changed to another water company.

**The real reason for the change is that SHP has been overcharging you for water.**

SHP made large profits through unfair commissions from your water bills. It has put aside £1.2million for compensation, but does not want to give money back to residents.

**This is wrong. You are entitled to it. Lib Dem Sutton Council, which owns SHP, does not want to give you back YOUR money.**

We will at the first opportunity pay back the overcharged money to the people it was unfairly taken from.

**We estimate this could be up to £200 per property.**

There is an election on 3 May and the Conservative position on refunding your money to you is crystal clear.

**Only a Conservative-run Council will pledge to do the right thing for residents who have been overcharged.**

**Tony SHIELDS**  

**David SLAUGHTER**
